I've felt the wonder of spring
The warmth that a summer day brings
Winter and fall, have both touched me too
But you are the season
I never knew

I have held diamonds and gold
Possessions I've bought and I've sold
And its taken time to find what is true
For you are the treasure
I never knew

You've made it happen
You've opened my heart and my mind and my soul
With love and a passion
I never knew

I thought I'd been everywhere
Traveled by sea and by air
I've seen all the sights and bid them adieu
But you take me places
I never knew

I was a seeker of truth
To questions I had in my youth
And I searched for years looking for clues
But you are the answer
I never knew

You've made it happen
You've opened my heart and my mind and my soul
With love and a passion
I never knew

I've seen the depth of the sky
The home of the angels on high
And all of the stars that come into view
But you are the heaven
I never knew
