Why does it take
An act of hate
To make us see
Our unity?
We must stay strong
And carry on
Forever to be free...

Summoned to fight
And sacrifice
Called to wars
On distant shores
Giving our lives
To keep the light
Of Freedom burning bright

Refrain:

Gone are the days
Of our innocent ways
Thinking that no harm could ever
Come to us
But try, as they will
There's no way they can ever kill
The spirit of the people of America

Never forget
Those who died
Honor their memory
With your pride
Fallen heroes
And innocent lives
The pain is hard to hide

Never forget
Our timeless debt
Generations
Built this dream.
We can't expect
That our freedom is free
And comes without a price

Refrain:

Gone are the days
Of our innocent ways
Thinking that no harm could ever
Come to us
But we'll gather strength
And we'll go...to any length
To Honor the heroes of America

This is the challenge
Of our times
Our resolve
Is on the line
We'll put our differences
Behind
Like brothers we'll unite

We'll never cower
And we'll not hide
Working together
Side by side
No force of evil
Can divide
A people unified

Refrain:

Gone are the days
Of our innocent ways
Thinking that no harm could ever
Come to us
But we'll gather strength
And we'll go to any length
Defending the future of America

For try as they will, There's no way they can ever kill...The spirit of the people of America!
